Small Business Owner COVID-19 Outreach & Education

of clients reported better understanding of risk factors for mental illness

of citizenship applicants successfully passed their citizenship tests & interviews

of youth feel better informed about adverse effects of SUD

of clients reported feeling better able to handle their emotional challenges

of monolingual residents feel more confident advocating for their needs (mental health, housing, language access, transportation, etc.)

of youth feel better prepared to resist substance-use related internal pressures and peer pressures

Clients experienced an average reduction of 5 points in their PHQ-9 depression scores

increase in lawful permanent residents seeking naturalization services as a result of our culturally-tailored outreach and education

of clients across TCF's programs are satisfied/very satisfied with TCF's culturally and linguistically competent services.

We can't do this work without you

I would like to thank each and every partner, funder, donor, and supporter who worked with us in building a more equitable & inclusive community for immigrants, refugees, and other underserved communities. Your ongoing support and partnership will allow us to continue our work in supporting immigrant and refugee families, like those who have shared their stories below.

Thank you - Vattana Peong, Executive Director

"Thank you for taking me to the Santa Ana Zoo. I lived in Santa Ana for so long, and didn't know we had a zoo here. I feel lonely at home because of my mobility & disability issues. I got to see the butterflies and all the different animals. I am so happy."

- 75 Year Old Client

Fernando's Journey to Becoming a Citizen

Fernando was a victim of identity fraud several years ago, which complicated his journey to becoming a US Citizen. Like many in our community, Fernando also experienced unemployment during the pandemic, which left him concerned about paying the citizenship fees to USCIS. Despite these challenges, he was determined to become a citizen and exercise his right to vote. At TCF, our team helped Fernando resolve his concerns about applying, helped prepare his documents, helped practice for his interview, and gain access to a reduced fee waiver for citizenship.

"Thank you for helping me 'oun' (little sister in Khmer). This is such a great event; I am able get all my kids and myself vaccinated and they are having so much fun with all the food and activities. They really enjoy the event and I am so happy and thankful."

- Monolingual Parent
