- "I have been coming to the Plan Ahead Youth Program (PAYP) for 5 years. PAYP has really helped me get my homework done and make my grades better. I know my mom worries less about my grades at school too. The youth counselors have been teaching me a lot about leadership skills and I think I have been able to get better at those skills because they let me help them in the classroom with the 1st and 2nd graders. I also recently got to go to the City Council to share my experience with PAYP, and I have never done that before."

- "My parents and I were able to apply for citizenship with the help of the immigration staff at The Cambodian Family by coming to a citizenship event. I just turned 18, and I want to become a citizen so I can have better economic opportunities and have more rights. The immigration staff here were so helpful and made this an easier experience for my family, and I will recommend these services to other people I know."

- **When I lost my job, I was devastated.** I didn't know how I was going to feed my 3 children or pay my rent. I don't have any family here to help me. My friend told me to call TCF because they help with the EDD application and I did. **Now I am not worried anymore.** VC, (Santa Ana, Mother of 3)

"I am not worried anymore"

- I needed help applying for Cal-Fresh and Medi-cal and I didn't know where to turn to get this assistance. My wife and I just came to the United States and we are expecting our first child. When I heard that there was an organization that could help me with the application, I called. **They were very good and very nice to me. They helped me apply for CalFresh and Medi-cal.** (HP, Garden Grove)

Thank you so much for your partnership, support, and investment in our communities.
Without you, we could not have done this

thank you.
